R Notebook

278 commits, 1383 unique files and 25 unique authors. I filtered the file types the same way Professor Vitek did in his report, keeping only files from known programming languages.

I only considered projects with more than 10 authors.

50.8532423% of projects have tf 1
24.9146758% of projects have tf 2
11.0921502% of projects have tf 3
